NEWS & NOTES

A monthly newsletter to keep you informed.

Please Change Your Email Password

Happy Healthy New Year to All,

To uphold the quality and reputation of SmarterMail Email, your use of SmarterMail is subject to these program policies. If you are found to be in violation of our policies at any time, as determined by MDWEB Corporation in its sole discretion, we may warn you or suspend or terminate your account. Please review all of our SmarterMail Program Policies by clicking here.

MDWEB SmarterMail Policies

1. Please create a new password that includes eight characters with at least one upper case, one lower case, one number and one symbol.
2. SmarterMail should **NOT** be used as an online storage for your email files.
3. Do not Operate any email account without proper anti-virus or spyware protection.
4. SmarterMail Administrators must keep their prospective users mailboxes below 500 megabytes or additional fees will be incurred.
   Please review all of our policies by clicking here

   Please review our terms of service by clicking here

Secure Password Generator

The PC Tools Password Generator allows you to create random passwords that are highly secure and extremely difficult to crack or guess due to an optional combination of lower and upper case letters, numbers and punctuation symbols.
Hint: Including numbers and punctuation in a mixed case password will generally create a more secure password, which would be exponentially harder to recover using a brute force password discovery method. Click the link below to use our secure password generator.

Secure Password Generator
